

LAM | Leather**CLEANING CODE**

LC: Leather with Crypton - Genuine leather requires the least care of all upholstery materials. Dusting with a clean dry cloth is the recommended routine cleaning method. For spots and spills, wipe excess liquid immediately and let air dry. If necessary, use lukewarm water with mild non-detergent soap, work into a thin lather with a soft cloth, rinse with clean water. Because of the Crypton finish, this leather is bleach cleanable with a cleaning solution that contains 10% bleach. Always rinse promptly with clean water and buff to restore lustre. Crypton Upholstery Cleaner can also be used.

Please note: If specific cleaners are not listed, then the pattern has not been tested for cleaning solution compatibility.
